Letter of Credit/ Bank Guarantee	40.00	40.00	
Total	274.30	274.30	

[^]Instrument details are provided in Annexure I

*Issuer did not cooperate; based on best available information

Rationale

The rating downgrade is due to lack of adequate information regarding Aurore Life Sciences Pvt Ltd's (Aurore) performance and hence the uncertainty around its credit risk. ICRA assesses whether the information available about the entity is commensurate with its rating and reviews the same as per its "Policy in respect of non-cooperation by a rated entity" available at www.icra.in. The lenders, investors and other market participants are thus advised to exercise appropriate caution while using this rating as the rating may not adequately reflect the credit risk profile of the entity, despite the downgrade.

As part of its process and in accordance with our rating agreement with Aurore, ICRA has been trying to seek information from the entity to monitor its performance. Despite multiple requests by ICRA, requisite information has not been shared for review of the ratings. In the absence of requisite information and in line with the aforesaid policy of ICRA, the rating has been moved to the "Issuer Not Cooperating" category. The rating is based on the best available information.

Please refer to the following link for the previous detailed rationale that captures Key rating drivers and their description, liquidity position, rating sensitivities: [Click here](#). ICRA is unable to provide the latest information because of non-cooperation by the entity.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	Corporate Credit Rating Methodology Rating Methodology for Entities in the Pharmaceutical Industry Consolidation and Rating Approach Policy in respect of non-cooperation by the rated entity
Parent/Group Support	Not applicable
Consolidation/Standalone	For arriving at the ratings, ICRA has taken a consolidated view of Aurore Life Sciences Pvt Ltd and Aurore Pharmaceuticals Pvt Ltd (Aurore Pharma). Aurore had a 67% stake in Aurore Pharma as on March 31, 2022.

About the company

Aurore Life commenced its operations from September 2016 with three independent research and development (R&D) centres in Hyderabad. It targeted domestic and semi-regulated markets like Indonesia, Bangladesh, Iran and Egypt. Post R&D, the manufacturing is typically outsourced to other companies, impacting its margins in the last few years. To mitigate this, Aurore Life acquired a manufacturing plant in FY2019, where it manufactures intermediates and active pharmaceutical ingredients (APIs) for semi-regulated markets pending regulatory approvals. The facility has recently received approval from European Medical Agency (EMA) for some products. The current capacity of the facility is 400 KL. At present, Aurore Life utilises Aurore Pharma's facility for manufacturing some of its own products. HAPS hold 62% equity stake in Aurore Life, while the balance is held by its promoter, Mr. Rajender Rao. HAPS is equally held by Karuna Business Solutions LLP (Mr. Arun Kumar's family office) and ILabs.

Established in 2017, Aurore Pharma is held by Aurore Life (67%) and Mr. Dayakar Mallu (33%). Aurore Pharma acquired a US FDA-approved API manufacturing plant from Mylan in H1 FY2019. In the near term, Aurore Pharma will provide contract manufacturing services to Aurore Life, Mylan and Aurobindo Pharma. Over the long-term, Aurore Pharma is expected to cater to regulated markets like the US, Europe and Japan.

Key financial indicators

Aurore Life	FY2020	FY2021	FY2022

Amount in Rs. Crore

Complexity level of the rated instruments

Instrument	Complexity Indicator
Term Loans	Simple
Working Capital Facilities	Simple
Letter of Credit/ Bank Guarantee	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)
