Edelweiss Housing Finance Limited: Rating confirmed as final for securities backed by home loan receivables securitisation transaction

Summary of rating action

Trust Name	Instrument*	Current Rated Amount (Rs. crore)	Rating Action
HL Trust 17	Series A1 ABS	57.91	[ICRA]AAA(SO); provisional rating confirmed as final

*Instrument details are provided in Annexure I

Rationale

In July 2022, ICRA had assigned a Provisional [ICRA]AAA(SO) rating to Series A1 ABS issued by HL Trust 17. The securities are backed by a pool of Rs. 151.58 crore home loan (HL) receivables (underlying pool principal of Rs. 64.34 crore) originated by Edelweiss Housing Finance Limited (EHFL, rated [ICRA]A+(Stable)). Since the executed transaction documents are in line with the rating conditions and the legal opinion for the transaction has been provided to ICRA, the said rating has now been confirmed as final.

A summary of the performance of the pool as of September 2022 payout month has been provided below.

Parameter	HL Trust 17
Months post securitisation	3
Actual pool amortisation	7.02%
Scheduled pool amortisation	1.08%
Actual PTC amortisation	7.80%
Average monthly prepayment rate	1.44%
Cumulative collection efficiency	96.43%
Monthly collection efficiency	96.14%
Loss cum 0+ dpd	8.10%
Loss cum 30+ dpd	2.70%
Loss cum 90+ dpd	0.00%
Cumulative cash collateral utilisation	0.00%

Key rating drivers

Credit strengths

- Availability of credit enhancement (CE) in the form of subordination for Series A1 ABS, excess interest spread (EIS) and cash collateral (CC)
- No overdue contracts in the pool as on the cut-off date
- High share of contracts in the initial pool with CIBIL score of more than 750 (~44%)

Credit challenges

• geographical concentration with the share of the top 3 states at ~78% in the initial pool
 • borrower concentration with top borrower attributing to 5.3% of the initial pool principal
 • exposure to interest rate risk as the pool has contracts with floating rate and fixed rate loans, while the yield on securities is fixed
 • performance of the pool would remain exposed to macro-economic shocks / business disruptions, if any

Description of key rating drivers highlighted above

The first line of support for Series A1 ABS in the transaction is in the form of a subordination of 10.0% of the pool principal, which will be in the form of an equity tranche (Series A2 ABS). The EIS available after meeting the promised and expected payouts (as per the waterfall mechanism) to Series A1 ABS will be passed on as the expected yield to Series A2 ABS. Series A2 ABS payouts are completely subordinated to Series A1 ABS and the EIS will be available as support for principal payment to Series A2 ABS only after Series A1 ABS has been fully paid. A CC of 8.50% of the initial pool principal (Rs. 5.47 crore), to be provided by EHFL, would act as further CE in the transaction. In the event of a shortfall in meeting the promised ABS payouts during any month, the trustee will utilise the CC to meet the shortfall.

As per the transaction structure, the monthly promised cash flows for Series A1 ABS will comprise the scheduled principal amount (which is 90% of the billed pool principal) and the interest payment to Series A1 ABS at the predetermined interest rate on the principal outstanding. The surplus, in relation to the principal portion of the pool receivables along with any prepayment amount, would be used for the payment of Series A1 for faster amortisation. Following the payment of Series A1 ABS in full, the principal for Series A2 ABS is to be paid monthly on expected basis (to the extent of billing). Further, the yield on Series A2 ABS is in the form of the EIS in the structure. The surplus EIS available, after meeting the promised and expected payouts to Series A1 ABS, will be passed on as the expected yield to Series A2 ABS.

The pool comprised 452 HL contracts with future receivables of Rs. 151.58 crore (underlying principal of Rs. 64.34 crore) as on the cut-off date. The weighted average seasoning of the pool was moderate at ~29 months as on the pool cut-off date (May 31, 2022). Further, the CIBIL score for a substantial share of the loan contracts (~44%) was more than 750. There were no overdue contracts in the pool as on the cut-off date, though ~14% of the contracts in the pool (calculated on principal amount) have been 90+ days past due (dpd) at some stage in the past.

The pool had high geographical concentration with the top 3 states (Maharashtra, Tamil Nadu and Gujarat) contributing ~78% to the initial pool principal amount, and moderate obligor concentration with top borrower attributing to 5.3% of the pool. Further, the pool comprised floating rate (32% of the pool) and fixed rate (68% of the pool) loans as on the cut-off date, while the ABS yield is fixed. Hence, the transaction is exposed to interest rate basis risk, which means any downward movement in the benchmark yield will reduce the EIS available in the transaction. Also, pool's performance would remain exposed to macro-economic shocks / business disruptions, if any.

Past rated pools performance: ICRA has rating outstanding on seven PTC transactions backed by HL receivables for EHFL. The pools which have completed at least three payouts have reported adequate collections with nil CC utilisation up to the September 2022 payouts.

Key rating assumptions

As the present pool has a moderate concentration, the performance of the pool is likely to get influenced by the performance of a large obligor. The variability of loss in case of a concentrated pool would be much higher than that of a regular granular pool. ICRA's rating / credit assessment on the entity along with the balance tenure of the loan given to the entity has been taken into account to estimate the default probability on the loan. ICRA has also built-in assumptions on quantum and timing of recovery post default. Further, a certain loss given default (LGD) has been assumed by taking into account that the repossession and sale of underlying assets

ICRA's cash flow modelling for rating securitisation transactions involves the simulation of potential delinquencies, losses (shortfall in principal collection during the tenor of the pool) and prepayments in the pool. The assumptions for the loss and coefficient of variation (CoV) are arrived at after considering the past performance of the originator's portfolio and the rated pools as well as the characteristics of the specific pool being evaluated. Additionally, the assumptions may be adjusted to factor in the current operating environment and any industry-specific factors that ICRA believes could impact the performance of the underlying pool of contracts.

After making these adjustments, the expected mean shortfall in principal collection on the granular portion of the pool during the tenure of the pool is estimated at 5.00-6.00%, with certain variability around it. The prepayment rate for the underlying pool is estimated at 6.0-20.0% per annum.

Liquidity position: Superior

The cash collections and the credit collateral available in the transaction are expected to be highly comfortable to meet the Series A1 ABS investor payouts. Assuming a monthly collection efficiency of even 50% in the underlying pool of contracts in a stress scenario, the recommended credit collateral would cover the shortfalls in the investor payouts for a period of 31 months.

Rating sensitivities

Positive factors – Not applicable

Negative factors –The sustained weak collection performance of the underlying pool (monthly collection efficiency <90%), leading to higher-than-expected delinquency levels and higher CE utilisation levels, would result in a rating downgrade.

Analytical approach

The rating action is based on the trustee confirming compliance with the terms of the transaction and the executed transaction documents being in line with the terms initially shared with ICRA.

About the company

Edelweiss Housing Finance Limited (EHFL) is a housing finance company registered with National Housing Bank. It was incorporated in FY2011 following the Group’s strategy of creating a larger retail footprint. The Group provides HLs and loan against property through EHFL. Over the last couple of years, the company has realigned its strategy to focus on low ticketsized home loans. As of March 31, 2022, Edelweiss Rural & Corporate Services held a 55.23% stake, followed by Edelweiss Finance Company Limited (39.77%) and EFSL (5.00%).

The company reported a profit after tax (PAT) of Rs. 13.80 crore on total income of Rs. 513.90 crore in FY2022 compared to a net profit of Rs. 3.73 crore on total income of Rs. 551.06 crore in FY2021. Its total assets stood at Rs. 3,956.67 crore while its net worth was Rs. 777.63 crore as of March 31, 2022 compared to Rs. 4,931.10 crore and Rs. 762.80 crore, respectively, as of March 31, 2021. The borrowings stood at Rs. 2,293.02 crore as of March 31, 2022 compared to Rs. 3,481.37 crore as of March 31, 2021. The loan book stood at Rs. 3,096.44 crore as of March 31, 2022 compared to Rs. 3,595.86 crore as of March 31, 2021. The capital-to-risk weighted assets ratio (CRAR) stood at 28.3% as of March 31, 2022 compared to 26.5% as of March 31, 2021.

Edelweiss Financial Services Limited

Edelweiss Financial Services Limited (EFSL), the holding company of the Edelweiss Group of companies, was incorporated in 1995 by first-generation entrepreneurs to offer investment banking services primarily to technology companies. At present, the Group is engaged in wholesale and retail financing, distressed assets resolution, corporate debt syndication and debt restructuring, institutional and retail equity broking, corporate finance advisory, wealth advisory and asset management. It forayed into housing finance in FY2011, life insurance in FY2012 and general insurance in FY2018.

On a standalone basis, EFSL had posted total income of Rs. 1,372 crore and a PAT of Rs. 933 crore in FY2022 compared to Rs. 1,722 crore and Rs. 716 crore, respectively, in FY2021. It had a net worth of Rs. 5,000 crore, total borrowings of Rs. 2,432 crore

and total assets of Rs. 8,042 crore as of March 31, 2022 compared to Rs. 4,126 crore, Rs. 838 crore and Rs. 5,981 crore, respectively, as of March 31, 2021.

Complexity level of the rated instrument

Instrument	Complexity Indicator
Series A1 ABS	Moderately Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: www.icra.in
