Cholamandalam Investment and Finance Company Limited: Provisional [ICRA]AAA(SO) assigned to PTC Series A backed by vehicle loan receivables issued by PLATINUM TRUST JULY 2023 - TRANCHE I; Provisional [ICRA]A-(SO) assigned to second loss facility

Summary of rating action

Trust Name	Instrument*	Current Rated Amount (Rs. crore)	Rating Action
PLATINUM TRUST JULY 2023 - TRANCHE I	PTC Series A	654.14	Provisional [ICRA]AAA(SO); Assigned
	Second Loss Facility	11.45	Provisional [ICRA]A-(SO); Assigned

*Instrument details are provided in Annexure I

Rating in the absence of pending actions/documents	No rating would have been assigned as it would not be meaningful
--	--

Rationale

ICRA has assigned provisional ratings to the pass-through certificates (PTCs) and second loss facility (SLF) issued under a securitisation transaction originated by Cholamandalam Investment and Finance Company Limited {CIFCL/originator; rated [ICRA]AA+ (Stable)}. The PTCs are backed by a pool of Rs. 654.14-crore (pool principal; receivables of Rs. 824.58 crore) vehicle loan receivables.

The provisional ratings are based on the strength of the cash flows from the selected pool of contracts, CIFCL's track record in the vehicle loan business and the credit enhancement available in the form of (i) a credit collateral (CC) of 6.75% of the initial pool principal (Rs. 44.15 crore) to be provided by the originator, (ii) excess interest spread (EIS) of 9.87% of the initial pool principal (Rs. 64.53 crore) in the structure, and the integrity of the legal structure. The ratings are subject to the fulfilment of all the conditions under the structure and the review of the documentation pertaining to the transaction by ICRA.

Key rating drivers

Credit strengths

- Established position in the vehicle finance market, backed by its strong franchisee base and diverse product portfolio
- Availability of credit enhancement in the form of EIS and CC
- Absence of delinquent contracts in the pool as on the cut-off date

Credit challenges

- Proportion of contracts with loan-to-value (LTV) ratio of more than 80% is high in the initial pool at ~63%
- Performance of the pool would remain exposed to macroeconomic shocks/business disruptions, if any

Description of key rating drivers highlighted above

According to the transaction structure, the loan pool receivables will be assigned at par to the PTC investors. The monthly cash flow schedule comprises the promised interest payment to PTC Series A at the predetermined interest rate on the principal outstanding and the promised principal (100% of the pool principal billed). Any EIS after making the payments to Series A PTCs will flow back to the originator on a monthly basis. The CC will be used for any shortfall in the promised interest payment and for any shortfall in the payment of the promised principal in any month.

The first line of support for meeting the scheduled PTC payouts is the EIS in the structure. Further credit support is available through a CC of 6.75% of the initial pool principal amount (Rs. 44.15 crore). The CC will be split into a first loss facility (FLF), amounting to Rs. 32.71 crore (5.00% of initial pool principal), and an SLF amounting to Rs. 11.45 crore (1.75% of initial pool principal).

There are no overdues in the pool as on the cut-off date. The pool is characterised by contracts with a weighted average seasoning of ~11 months and is well diversified with low obligator concentration as on the cut-off date. It consists of new and used multipurpose utility vehicle (New MUV: ~33% and Used MUV: ~4%), new and used light commercial vehicle (New LCV: ~15% and Used LCV: ~5%), new and used heavy commercial vehicle (New HCV: ~5% and Used HCV: ~6%), new and used construction equipment (New CE: ~13% and Used CE: ~4%) and tractor (15%) loan contracts. It has a high share of contracts with an LTV ratio of more than 80% (~63%) as on the cut-off date. Further, its performance would remain exposed to any macroeconomic shocks/business disruptions.

Past rated pools: ICRA had ratings outstanding on 12 vehicle finance PTC transactions of CIFCL as of July 2023. The performance of the live pools (which have completed at least three months post securitisation) remained healthy till the June 2023 payouts. Any CC utilisation in the past was fully topped up in subsequent months and there has been no CC utilisation in the past 12 months.

Key rating assumptions

ICRA's cash flow modelling for rating asset-backed securitisation (ABS) transactions involves the simulation of potential delinquencies, losses (shortfall in principal collection during the tenor of the pool) and prepayments in the pool. The assumptions for the loss and coefficient of variation (CoV) are arrived at after considering the performance of the originator's portfolio as well as the characteristics of the specific pool being evaluated. Additionally, the assumptions may be adjusted to factor in the current operating environment and any industry-specific factors that ICRA believes could impact the performance of the underlying pool of contracts.

After making these adjustments, the expected mean shortfall in principal collection during the tenure of the pool is estimated at 2.50-3.50% of the initial pool principal, with certain variability around it. The average prepayment rate for the underlying pool is estimated at 12.0% p.a.

Liquidity position

For PTC Series A: Superior

The liquidity of the rated transaction is expected to be superior, supported by the healthy collections expected from the pool of contracts and the presence of a CC amounting to 6.75% of the initial pool principal amount. Even assuming a monthly collection efficiency of only 50% in the underlying pool of contracts in a stress scenario, the CC would cover the shortfalls in the scheduled PTC payouts for a period of six months.

For SLF: Strong

FLF, amounting to 5.00% of the pool principal amount, is available in the transaction along with the EIS for the top-up of the SLF, if needed, as per the defined waterfall mechanism.

Rating sensitivities

Positive factors – Not applicable for PTCs; the rating for the SLF can be upgraded on the sustained strong collection performance of the underlying pool of contracts, resulting in an increase in the credit enhancement cover available for the SLF.

Negative factors – Pressure on the ratings could emerge on the sustained weak collection performance of the underlying pool (monthly collection efficiency of <90% on a sustained basis), leading to higher-than-expected delinquency levels and credit enhancement utilisation levels.

Analytical approach

The rating action is based on the analysis of the performance of CIFCL’s portfolio till March 2023, the key characteristics and composition of the current pool, the performance expected over the balance tenure of the pool, and the credit enhancement cover available in the transaction.

Analytical Approach	Comments
Applicable rating methodologies	Rating Methodology for Securitisation Transactions
Parent/Group support	Not Applicable
Consolidation/Standalone	Not Applicable

Pending actions/documents required to be completed for conversion of the provisional rating into final

The assigned ratings are provisional and would be converted into final upon the execution of:

1. Trust deed
2. Assignment agreement
3. Legal opinion
4. Trustee letter
5. Chartered Accountant’s Know Your Customer (KYC) certificate
6. Any other documents executed for the transaction

Validity of the provisional rating

The Trust is expected to complete the pending actions/execute the pending documents in the near term. However, in case of continued pendency of the actions/documents beyond one year of this publication, the provisional ratings would be withdrawn for the transaction even if the instrument has been issued.

Risks associated with the provisional rating

In case the issuance is completed, but the pending actions/documents are not completed for the transaction within one year (validity period) from the assignment of the ratings, the provisional ratings will be withdrawn in accordance with ICRA’s Policy on Provisional Ratings available at www.icra.in.

About the originator

CIFCL, a non-banking financial company, is a part of the Chennai-based Murugappa Group of companies. Incorporated in 1978, it operates through 1,191 branches across 29 states and Union Territories (UTs) with net assets under management (AUM) of Rs. 1,06,498 crore as of March 2023. The company’s core business segments include vehicle finance (63%), loan against property (20%), home loans (8%) and others (9%). The small and medium-sized enterprises (SME) segment portfolio is projected to remain modest over the near term as the company is expected to concentrate on the vehicle finance, home equity and housing finance segments.

As of March 2023, CIFCL had two wholly-owned subsidiaries, Cholamandalam Home Finance Limited and Cholamandalam Securities Limited, a joint venture with Payswift Technologies Private Limited, and the following associate entities¹ – Vishvakarma Payments Private Limited and Paytail Commerce Private Limited. Cholamandalam Home Finance Limited is awaiting a licence from National Housing Bank.

¹ On March 28, 2023, CIFCL entered into a share swap agreement with TVS Supply Chain Solutions Limited (TVSSCSL), White Data Systems India Private Limited (WDSL) and other shareholders of WDSL for the transfer of its entire equity shareholding in WDSL to TVSSCSL. As consideration, TVSSCSL allotted 22,35,265 compulsory convertible preference shares (CCPS) to the company on April 20, 2023. In accordance with Ind-As 105 ‘Non-current Assets Held for Sale and Discontinued Operations’, WDSL ceased to be an associate of the Group, effective March 28, 2023, and has been classified as an asset held for sale as of March 31, 2023

In FY2023, CIFCL (standalone) reported a net profit of Rs. 2,666 crore on a managed asset base of Rs. 1,15,278 crore compared with Rs. 2,147 crore and Rs. 85,128 crore, respectively, in FY2022.

Key financial indicators (audited)

CIFCL (standalone)	FY2021	FY2022	FY2023
Total income	9,576	10,139	12,978
Profit after tax	1,515	2,147	2,666
Assets under management (AUM)	78,709	85,128	1,15,278
Gross stage 3	3.96%	4.37%	3.01%
Net stage 3	2.21%	2.64%	1.62%

Complexity level of the rated instrument

Instrument	Complexity Indicator
PTC Series A	Simple
Second Loss Facility	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)
