Vriksh Advisors Private Limited: Rating confirmed as final for PTCs issued under a collateralised bond obligation transaction

Summary of rating action

Trust Name	Instrument*	Current Rated Amount (Rs. crore)	Rating Action
PIRG SDI 6 TRUST	PTC Series A1	5.00	[ICRA]A-(SO); provisional rating confirmed as final

*Instrument details are provided in Annexure I

Rationale

In August 2023, ICRA had assigned Provisional [ICRA]A-(SO) rating to pass-through certificates (PTCs) Series A1 issued by PIRG SDI 6 TRUST wherein the seller/originator is Vriksh Advisors Private Limited (Vriksh). The PTCs are backed by future receivables arising from the non-convertible debentures (NCD) issued by four entities, viz. Clix Capital Services Private Limited, Muthoot Capital Services Limited, Satin Creditcare Network Ltd. ([ICRA]A-(Stable)/[ICRA]A1) and Spandana Sphoorty Financial Limited ([ICRA]A(Stable)). Since the executed transaction documents are in line with the rating conditions and the legal opinion for the transaction has been provided to ICRA, the said rating has now been confirmed as final.

Key rating drivers

Credit strengths

- Diversity amongst the borrower entities in terms of the varied nature of businesses
- Presence of entities having moderate to strong credit profiles

Credit challenges

- High obligor concentration in the pool (top obligor constitutes ~27% of initial pool principal)
- No external credit enhancement in the structure

Description of key rating drivers highlighted above

As per the transaction structure, the NCD receivables will be assigned at par to the trust. The monthly cash flow schedule comprises of expected principal and interest payments to PTC Series A1. The principal and interest payments are promised on the legal final maturity date (July 1, 2025). The PTC payouts for a particular month will comprise of the NCD payouts received in the preceding month. All the rights of NCD holders will be exercised by the Trustee on behalf of PTC investors.

There is no external credit enhancement available in the structure. The entities, the NCDs of which would be assigned to the Trust, have standalone ratings in the A category. The entities are NBFCs involved in lending business across different product classes and end-use, thereby providing a diverse portfolio mix to the pool. However, the concentration risk is high since the transaction comprises NCD contracts issued by only four entities; the top obligor in the pool constitutes ~27% of the pool principal. Hence, any deterioration in the credit quality of the individual entities in the pool to a rating level below the rating assigned to the PTCs would have a bearing on the credit quality of the rated PTCs.

Past rated pools: This is the first NCD receivables-backed PTC transaction (originated by Vriksh), which has been rated by ICRA.

Key rating assumptions

ICRA's rating (or shadow rating) on the entities in the pool has been taken into account while assigning rating to PTCs. There is no external credit enhancement in the structure; hence, the default probability on the PTC payout is considered to be in line with the default probability of the lowest-rated entity in the pool.

Liquidity position: Adequate

Considering the liquidity profiles of the underlying entities, the liquidity position for PTC Series A1 is considered to be adequate to meet the promised investor payouts.

Rating sensitivities

Positive factors – Improvement in the credit profiles of the underlying entities could lead to upgrade in PTC rating.

Negative factors – The rating could be downgraded due to weakening of credit profile of entities which are a part of the pool or non-adherence to the material terms of the transaction.

Analytical approach

The rating action is based on the trustee confirming compliance with the terms of the transaction and the executed transaction documents being in line with the terms initially shared with ICRA.

About the Seller

Vriksh Advisors Private Limited (Vriksh) is in the business of leasing various movable assets to its identified customers on an operating lease model for a mutually agreed period. Concurrently with the lease of assets, Vriksh assigns all or a significant portion of the lease rent receivable from its customers on a non-recourse basis to third parties. Till date, Vriksh has originated 7 LeaseX (leasing transaction via securitization structure is referred to as "LeaseX) opportunities executed in the form of a securitized debt instrument (SDI). These transactions had a cumulative value of more than Rs. 70 crore and involved 18 Lessees with a monthly payout to the investors.

Grip Invest Technologies Private Limited (Grip), which is Vriksh's related entity, operates a digital platform to discover alternate investment options and offers its users access to various asset-backed, fixed-income investment opportunities. Asset-backed leasing is the primary asset class offered to its users. Grip has enabled 24,300 investors to invest Rs. 690 crore since its launch 3 years ago. It has provided leasing to 130+ companies with a focus on mobility, warehousing, medical equipment, furniture, etc. So far, about Rs. 323 crore has been returned to investors as per the repayment schedules. Grip has received Rs. 95 crore in equity capital from leading institutional investors such as Venture Highway, Endiya Partners, AdvantEdge, Anicut Capital, Nueva Capital and Multiply Ventures.

Complexity level of the rated instrument

Instrument	Complexity Indicator
PTC Series A1	Moderately Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)
